DANCE ON THE MONGOLIA.

A REWARD OFFERED.

Collector of Customs Stackable has received the following.

Baron Toll, Chief of the Polar Expedition sent out by the Academy of Sciences, left the Bennett Island, lying north of New Siberia, on October 26th (Nov. 5) 1902, taking a southern direction. He was accompanied by the astronomer Seeborg and two Jakouts, Vassily Coroghov, with the surname Chichak, and Nicolas Protodjakonow, with the surname Omook. The party seems to have been carried away by the ice. As the researches hitherto made have been in vain, a reward of roubles 5000 is offered by the Academy of Sciences for finding the whole expedition party, - any part of it, and a reward of roubles 2500 for giving the first exact indications of tracing the party.

BROWN'S STATEMENT.

High Sheriff Brown says that the statutes provide that the police shall attend public performances in sufficient number within reason, to preserve the peace. Lieutenant Leslie and Captain Kamae had been detailed to go to the theater for this purpose. No other men had been regularly detailed, for it was known that at least half a dozen men off duty would be present. The police take the position that the men who were refused admission to the performance last night, were supposed by the two officers to be there to guard against possible trouble.

The skin of the largest grizzly bear ever bagged in Colorado will be on exhibit at the St. Louis fair. The animal was somewhat of a local character in the neighborhood of Delta, Col., where he was killed, on the Grand Mesa, and was known as "Old Two Toes" from the circumstance of having lost all but two of the useful appendages referred to, from one of his feet, in a conveniently placed steel trap, in cub days. He weighed 1200 pounds and measured 14 feet from the tip of his nose to stub tail, and 22 inches across his head.
